- The GMetrix platform provides the ultimate certification training solution with a single sign-on between training and test prep
- Teacher workbooks with answer keys and lesson plans

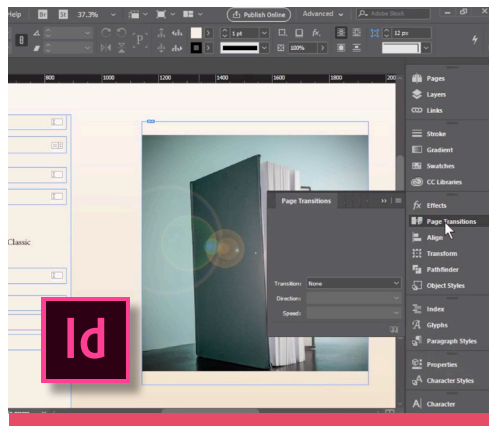

## COURSE OFFERINGS

### Visual Design using Photoshop 2021

This course is designed for both novice and advanced users preparing for certification. Using the concept of an outdoor magazine, the course demonstrates topics necessary for working in the design industry, setting up a project and customizing the user interface, organizing documents, creating and modifying visual elements, and publishing a final product. Mastering Photoshop is one of the most sought-after skills in today's competitive marketing and design job markets.

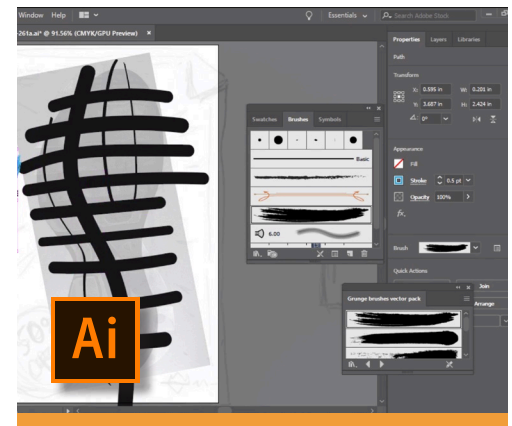

**CLASS HOURS:** 18 HRS.

### Print & Digital Media Publication using Adobe InDesign 2021

The Adobe InDesign course teaches designing page layouts for both print and Web. The course uses a step-by-step approach to demonstrate the basics of the application and interface and then gradually moves on to more advanced and complex aspects of the software. Methods for efficiently performing common layout tasks using various tools and on-object controls are taught, as well as learning how to use formatting tools to produce high quality documents. With the goal of preparing a user for certification, the course follows the exam objectives from working in the design industry to publishing your creation for web and print. Users who complete the course, whether seeking certification or not, will improve their employability and marketability in the design industry.

**CLASS HOURS:** 23 HRS.

### Graphic Design & Illustration using Adobe Illustrator 2021

The Adobe Illustrator course introduces both new and experienced users to Illustrator CC preparing the user for certification and improving their employability in the design industry. This course teaches the basics of working in the design industry including identifying an audience and their needs, communicating with colleagues and clients, and understanding copyright. You will also learn how to navigate, organize, and customize the application workspace; organize and streamline document workflows; create and modify text and graphic elements; and how to publish your project in web, print, and video formats.

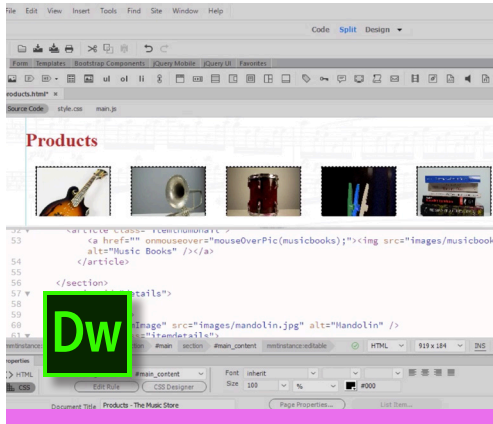

**CLASS HOURS:** 22 HRS.

### Each Course Includes:

Video-based instruction, exercise labs, pre-assessments and post-assessments and, flash cards in addition to a PDF project workbook. The workbook includes fill-in-the-blanks, glossary terms and definitions, and many other resources to help reinforce learning.

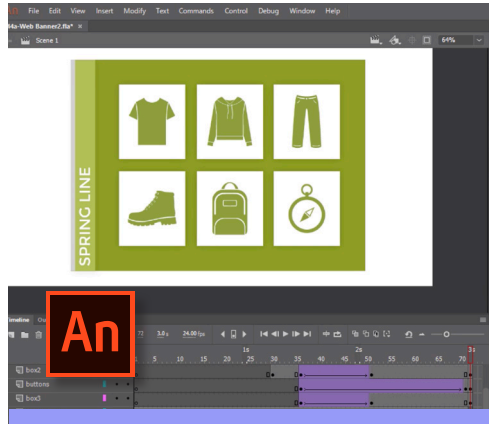

## COURSE OFFERINGS CONTINUED
