COURSE OFFERINGS

Adobe Photoshop Visual Design 2024

LearnKey's Adobe Photoshop - Visual Design course teaches one how to use Photoshop to create eye-catching images using existing photos. Specifically, this course covers working in the design industry, setting up a project and an interface, organizing documents, creating, and modifying visual elements, and publishing digital media. This course is for people wanting to become Adobe Certified Professionals in Photoshop, and it will make them more employable for any job requiring visual design skills and skills for creating and editing photos.

CLASS HOURS: 30.5 HRS.

Adobe InDesign - Print and Digital Media Publication 2024

In this comprehensive InDesign course, you will learn how to build print and online publications. You will see how to use the InDesign interface, including how to use tools and panels, and even how to customize your workspace. To create professional publications in InDesign, you will need to create text and graphic frames, as well as place content and images. Then, you will learn more complex skills such as master pages, guides, styles, tables, and form fields. And finally, you will learn how to export your publication for print or digital use. By the end of this course, you should feel comfortable building a publication from scratch and adding any useful features to your document.

CLASS HOURS: 28.5 HRS.

Adobe Illustrator - Graphic Design & Illustration 2024

LearnKey's Illustrator - Graphic Design and Illustration course introduces both new and experienced users to Illustrator, preparing them for certification and improving their employability in the design industry. This course teaches the basics of working in the design industry, including identifying an audience and their needs, communicating with colleagues and clients, and understanding copyright. You will also learn how to navigate, organize, and customize the application workspace; organize and streamline document workflows; create and modify text and graphic elements; and publish your project in web, print, and video formats.

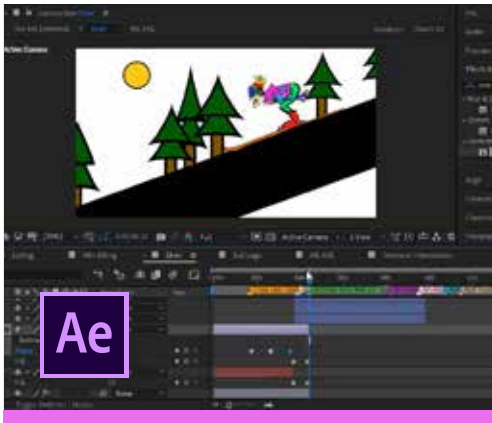

CLASS HOURS: 26 HRS.

Each Course Includes:

Video-based instruction, exercise labs, pre-assessments and post-assessments and, flash cards in addition to a PDF project workbook. The workbook includes fill-in-the-blanks, glossary terms and definitions, and many other resources to help reinforce learning.

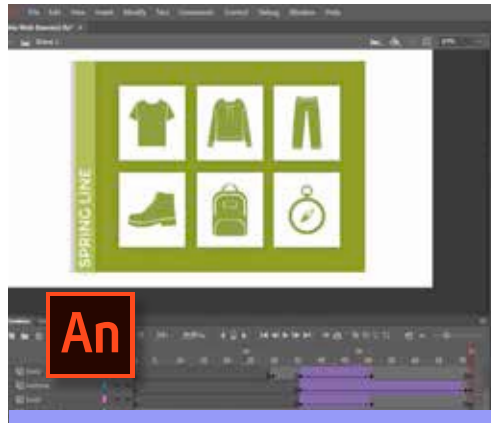

COURSE OFFERINGS CONTINUED
